Work Experience

Eth Tech | UX Design Intern

Jan–Jun 2026

Newark, CA

- Designed an end-to-end CRM iOS experience, translating concepts into wireframes, high-fidelity mockups, and AI-assisted prototypes for MVP launch.
- Designed a data visualization dashboard, AI chatbot, task tracker, and file-management flows; documented specifications in Figma and partnered with product and engineering teams to streamline implementation.
- Explored and validated 10+ UX directions to identify 3 product opportunities.
- Translated performance insights into 2 launched MVP features, increasing DAU by 10.2% and user satisfaction by 8.4%.

NextTier | Product Designer

Aug–Dec 2025

Sacramento, CA

- Designed Haitou, a responsive job-search platform using Material Design, increasing DAU by 12.5% and conversion by 14.2%.
- Built and maintained a Figma design system spanning grid, typography, color, and iconography, improving product consistency and implementation efficiency by 6.2%.
- Designed an AI-powered job-description summary feature informed by user expectations, performance insights, and A/B testing, increasing user retention by 10.2%.
- Synthesized 300+ surveys and 25 user interviews into 3 MVP feature concepts.
- Collaborated with product, engineering, UX writing, and research teams to define launch scope and deliver polished work on schedule.

Interbrand | Design Intern

May–Jul 2025

Shanghai, China

- Created campaign, social, motion, and digital assets across mobile and web touchpoints, contributing to a 120% increase in campaign exposure.
- Used AI-assisted visual exploration and prompt iteration to compare design directions, refine concepts, and deliver final assets on schedule.

Publicis Group Shanghai | Creative Designer

May–Jun 2024

Shanghai, China

- Designed Huawei HarmonyOS interfaces using the Huawei DCN Design Guide, contributing to a 9% increase in user acquisition.
- Presented design directions to stakeholders and led weekly reviews with product, engineering, and design partners to refine the experience.
- Iterated UX approaches by combining user insights with cross-functional feedback to evaluate design trade-offs.
